

MISSION and VISION STATEMENT

- Afford cosmetic services to the general public in a manner which will protect the public from inadequate surgical services; to mesh ambulatory surgical services into a system of acute health care facilities; and to insure that health care services rendered meet the same criteria as those met in the acute care hospital venue.
- To this end, it is our goal to operate the organization in accordance with all applicable laws and regulations in order to ensure availability of necessary facilities, supplies, nursing, administrative and clerical staff with the technical expertise to meet the needs of the patient.
- To provide medical and surgical services for quality, safe, effective, efficient and economical services in a setting that is warm and friendly to the patient.
