

Plastic Surgery Center Injectables

BOTOX™

\$18 per unit (priced by volume)

FDA approved BOTOX™ is used to relax facial muscles so creases and wrinkles are less noticeable, they also prevent certain movements that cause the wrinkles from occurring. Results last approximately 3 – 4 months. No allergy test required.

Restylane™ / Perlane™

\$600 - \$650 / per syringe*

FDA approved Hyaluronic Acid fillers for fine lines and deep wrinkles replacing lost volume and restoring youthful contours to your skin. Lip plumping is also an option. Results last approximately 6 months – 1 year. No allergy test required.

Juvederm Ultra™ / Juvederm Ultra Plus™

\$600 - \$650 / per syringe*

Replaces the Hyaluronic acid your skin loses over time and brings back the volume and smoothes away facial wrinkles and folds. Results last approximately 6 months – 1 year. No allergy test required.

Radiesse™

\$800 / per syringe*

Calcium based microspheres suspended in a water based gel are injected into your skin through a safe, minimally invasive procedure. Radiesse once injected stimulates the production of your own collagen, which assists in smoothing away signs of aging. Results last approximately 1 year. No allergy test required.

**special pricing when 2 or more syringes are injected*
